Safety in Scaffolding and Working at Heights, (19 - 20 March 2020 ,The Central Park Hotel, Pune)

PERSPECTIVE
Scaffold is a temporary structure used to support people and material in the construction or repair of buildings and other large structures. Work on scaffolds and at heights makes for a large number of accidents as revealed by accident analysis. Improper designs and bad maintenance of work platform for scaffolds, non-use of proper fall protection devices and misuse or abuse of ladders are the causes of accidents.

The Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and The Central Rules, 1998 made there under stipulate specific requirements for design, inspection and maintenance of scaffolds and provide for appointment of responsible person to ensure safety of scaffolds.

National Safety Council has designed this 2 – days Training Programme on ‘Safety in Scaffolding and Working at Heights’ as a part of NSC’s initiatives to promote Safety in Construction Industry. The programme gives a wider perspective of the design of scaffolds along with maintenance, inspection, record keeping and measures for prevention of fall from heights.

OBJECTIVE
To enable participants to design, install & maintain scaffolds for facilitating safe working at height.

TOPICS
- Safety While Working at Heights – An Overview
- Provisions under the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and The Central Rules, 1998 related to scaffolds and working at height.
- Types and Design of Scaffolds
- Scaffold Materials
- Manual Material Handling during Construction, Erection & Dismantling of Scaffolds
- Inspection and Maintenance of Scaffolds
- Safety While Working on Fragile Roofs
- Case Studies on Accidents related to Scaffolds, Ladders and Roofs will be supplemented by power point presentation, film shows, & discussions on construction of standard scaffolds.

PARTICIPANTS
Project Engineers, Site Engineers & Supervisors, Planning Managers, Safety Professionals, Safety Committee Members and Line Managers/Executives responsible for Safety in building and other construction work.
