Workshop on Hazard Identification and Risk Assessment, 27-28 February 2020, West End Hotel, Mumbai

**PERSPECTIVE**

Hazard is a source or a situation having potential to cause harm as human injury, ill health, damage to property, damage to environment or a combination of these. Hazard Identification is the process of recognizing a hazard in existence and defining its characteristic / impact. Similarly Risk is the combination of frequency or probability of occurrence of an event and the damage caused by the event. Risk Assessment is the overall process of estimating the magnitude of risk and deciding whether the risk is tolerable.

Globally all safety Management Systems such as IS 18001, OHSAS 18001, ILO OSH Guidelines, etc considers Hazard Identification and Risk Analysis (HIRA) as corner stone to establish a sound safety systems. Moreover industries are required to carry out HIRA for their different activities/operations as per statutory requirements. These include the Factories Act, 1948 and Rules made there under, the Manufacture, Storage and Import of Hazardous Chemicals Rules 2000, EIA Notification under the Environment Protection Act 1986, etc.

Considering importance of HIRA the Bureau of Indian Standards has brought out a complete standard titled “Hazard Identification and Risk Analysis – Code of Practice” IS 15656:2006. It provides detailed guidance on Quantitative & Qualitative Procedures.

This 2-days Workshop has been designed by NSC to create awareness on HIRA and provide practical guidance on carrying out HIRA for industrial operations/activities.

**OBJECTIVES**

At the end of the workshop the participants will be familiarize with the Hazard Identification and Risk Assessment procedures and how it can be utilized in their premises.

**TOPICS**

- Statutory Provisions on Hazard Identification & Risk Assessment (HIRA)
- Requirement of HIRA in OHS Management System
- Introduction to Hazard Identification & Risk Assessment.
- Techniques of Hazard Identification (Such as HAZOP, What if Analysis, Fault & Event Tree Analysis)
- Consequence Analysis
- Preparation of Report on HIRA.

**PARTICIPANTS**

Design Engineers, Process Engineers, Middle-Level Management Personnel from Production/Operations/Projects, Safety Professionals - Safety Officers, Safety Committee Members, Instrumentation/Maintenance Engineers.
