

ABOUT THE COUNCIL

The National Safety Council (NSC) was set up by the Ministry of Labour, Govt. of India on 4th March, 1966 as a premier autonomous body with a tripartite structure. Its mission is building a national movement on Safety, Health and Environment (SHE) to prevent and mitigate the loss of life, human suffering and economic losses and providing support services. It is registered as a Society as well as a Public Trust and managed by a 51-Member Board of Governors chaired by Shri Anand G. Mahindra, Vice Chairman & Managing Director, Mahindra and Mahindra Ltd. It has a network of 18 Chapters and 30 Action Centres across the country to percolate the movement to the grass-root level.

NSC offers the following services:

- As a Lead Resource Centre for SHE training, conducts national level specialised training courses and unit level need-based in-plant training programmes and brings out safety promotional materials such as posters, stickers, pocket guides, periodicals, calendars, diary etc.
- As a Leader in OSH consultancy services, conducts safety audits, risk assessment studies, HAZOP studies, safety awareness surveys, etc.
- Assists establishments in organising special campaigns - National Safety Day/Week, Fire Service Week and World Environment Day
- Maintains liaison with national and international organisations to update and disseminate latest information available globally.
- Provides services for On-site and Off-site Emergency Planning and Disaster Preparedness.
- Consultancy in implementation of OSH Management System.
- New Initiatives on Safety in road transportation, construction sector and SME sector to create safety awareness and provide cost-effective solutions for safety.
- Organises national and international conferences on safety, health and environment for exchange of experience and deliberations on burning SHE issues.
- Prestigious national level NSCI Safety Award schemes for factories and construction sectors.

Training Courses

- For an effective safety management in any industrial establishment, besides adequate professional knowledge and skills of employees, appropriate training to employees on various aspects of occupational safety & health and environment is essential. Further, imparting training to workers involved in hazardous processes is a statutory obligation
- NSC designs and offers specialised training courses on different important aspects of safety, health and environment. Safety films, group discussions, etc. supplement lectures by experienced faculty
- Reading material is provided to participants
- Participation in NSC training courses offers unique opportunity to participants to exchange good safety practices, innovative ideas and get clarifications from experienced faculty.

Notes

1. Nominations in the prescribed form accompanied by crossed Cheques/Demand Drafts drawn in favour of "National Safety Council, Navi Mumbai" should be sent to Director General, National Safety Council.
2. Courses are **non-residential**. Participants should make own arrangement for their stay.
3. Participants should not proceed to the venue without receiving **confirmation** of their nominations.
4. Participants will not be permitted to attend the course, if **payment** is not sent along with the nomination or with the nominee.
5. **Certificates** will be issued to participants in person at the end of each course.
6. Our PAN No. AAATN 3069 N
